**Subject: General Motors Fairfax Assembly
Replacement and Repairs for
Abatement Project
Durr PO No. 10018000**

Dear Mr. Perry:

I would like to take this time to convey my gratitude and acknowledge Genesys for the successful execution of the Abatement Replacement Project at the GM Fairfax Assembly Plant.

Genesys and its partners performed impeccably throughout each phase of the project. Jean Cortier was instrumental in working with Dürr to refine scopes and provide pricing on short notice. Brian Roder very thorough in his approach to the project execution, was cooperative and fair regarding changes in scope and was very organized in his development of a very critical and limited installation schedule. Dan Nussbaum was also very organized in his command of field activities and was very well prepared in his management of subcontractors.

Genesys' involvement in this project proved to be a successful and enjoyable experience, and I will certainly be recommending your services throughout all departments of Dürr for consideration of future work.

Best regards,

Dürr Systems, Inc.

Jeff Tucker
